

ChirpVision is an **in-venue broadcast-to-mobile** service for sporting events, music festivals and large crowd events. ChirpVision gives your fans a second-screen to enjoy the event from anywhere, and see so much more of the action!

- **Live, low-latency video**
- Supports up to **100,000 fans**
- Three channels **HD audio/video** with DVR replay/pause
- Free **iOS and Android** viewing app

**Chirp provides all on-site personnel and equipment.**

- Video production and editing
- Network installation and operation
- Fan support and promotions
- Graphics arts and video services

**Venue Requirements**

WiFi	<b>Chirp installs WiFi</b> in fan viewing areas or uses venue WiFi.
Video	Live video feeds at venue using HD-SDI, HDMI or analog.
Production Area	10'x10' indoor or covered area with electrical.
Fan Support Area	10'x10' promotions tent with electrical.

Chirp provides a **fan support team** that assists fans and promotes the service.
